MyRA[®]

MALAYSIA RESEARCH ASSESSMENT

Malaysia Research Assessment (MyRA[®]) is an instrument for measuring the Research, Development, Commercialization and Innovation (RDC&I) activities in Public and Private Universities, Branch Campuses and University Colleges in Malaysia.

MyRA[®] rating is to measure the achievement of Higher Learning Institutions (HLIs) in RDC&I through the criteria and benchmarks that were set according to each indicator. It is not intended to provide ranking among the institutions.

MyRA[®] assessment is based on three key aspects; input, process and output which includes seven (7) main criteria:

- a. Quantity and Quality of Researchers
- b. Quantity and Quality of Research
- c. Quantity and Quality of Postgraduates
- d. Innovation
- e. Professional Services and Gifts
- f. Networking and Linkages
- g. Support Facilities

HLIs achievements in RDC&I are categorized into six levels with 6 Star as the highest level.

Star Rating	Range For MyRA [®] Rating	
	≥100	
	≥75	<100
	≥60	<75
	≥45	<60
	≥30	<45
	≥15	<30
No Star	≥0	<15
