YUTP in a Glance

Our History

Yayasan Universiti Teknologi PETRONAS (YUTP) was officially established in 2007 with the primary goal of ensuring the welfare of underprivileged students at UTP. As an organisation trusted by UTP in steering the donation to be disbursed correspondingly among the ones in need, the employee of YUTP works profoundly to endow financial support to the underprivileged UTP students in their bid to pursue knowledge and training in the fields of engineering, science, and technology. This support also equips them for careers in the ever-demanding job market, thereby enhancing UTP's reputation as a distinguished institution of higher education. These initiatives are funded through donations from individuals and organisations who believe in and back our mission, enabling us to achieve continuous growth.

Our Vision

A primary partner to UTP in marshalling resources to provide the university with the philanthropic assets necessary to achieve its aspirations as a leader in technology education and centre of creativity and innovation.

Our Mission

- To engage business and community partners in enriching opportunities for the beneficiaries.
- To inspire donors to invest in UTP's ability to transform lives for the betterment of the nation and world.
- To ensure that contributions to YUTP are used and distributed effectively and efficiently in pursuit of UTP becoming a top global university by 2025.

Our Aspirations

YUTP's mission can be divided into four main aspirations, which is formulated to improve educational accessibility and to provide aid for underprivileged yet brilliant students.

From the Desk of the Secretary General

Dear Stakeholders,

It is with great pleasure that I present the YUTP Annual Review 2023. This year has been transformative for our foundation, marked by significant achievements and impactful initiatives, as we expanded our scholarship program awarding to deserving students.

In the current market environment, our students face numerous challenges that require resilience and adaptability. The economic landscape is evolving rapidly, demanding a new set of skills and a robust mindset. It is essential for our students not only to excel academically but also to develop a holistic set of skills that include technical proficiency, advanced critical thinking, and exceptional interpersonal abilities. These well-rounded attributes are crucial for navigating the complexities of today's world and making meaningful contributions to society.

At Yayasan UTP (YUTP), our commitment lies in providing our vibrant students with the essential financial resources and support services to achieve their educational aspirations and nurturing their holistic development. The scholarships we offer are made possible through the generous contributions of corporations and individuals like yourselves, who share the profound value of education and are devoted to investing in the future of our students. This financial assistance has a transformative impact, empowering recipients to realise their full potential and confidently pursue their dreams.

As the Secretary General of YUTP, it feels extremely rewarding to be part of the achievements we have up to this year and the steadfast progress in supporting the university's vision. UTP continues its journey as a premier institution, cultivating well-rounded students with exceptional technical expertise, critical thinking skills, and strong interpersonal capabilities.

Moving forward, we aim to continue this journey of excellence, focusing on further expanding our outreach programs, enhancing our advocacy efforts, and strengthening our financial sustainability, fostering an environment that nurtures innovation, creativity, and holistic development.

On behalf of YUTP, I extend my heartfelt gratitude to our esteemed donors, partners, volunteers, and staff for their unwavering support and dedication. Together, we have made a significant impact, and I am confident that we will continue to achieve great things and create a brighter future for our students and society at large.

Again, I thank you for your unwavering support and dedication to YUTP.

Ratna Mohd Tawil

Secretary General, YUTP &
Head, Group Treasury, PETRONAS

A Words from the Director

In the saga of 2023, YUTP unfolded yet another remarkable chapter, demonstrating our unwavering dedication to supporting underprivileged students as they pursue their aspirations. Throughout the year, we made significant strides in providing vital financial aid to students, overcoming various challenges.

Since its inception in 2007, YUTP has been proactive in seeking contributions and fostering partnerships with individuals and organisations committed to advancing students' education and growth. Our collaborative endeavors not only benefit students but also enrich the holistic learning experience at UTP. To date, we have awarded scholarships and bursaries to 2,624 students from disadvantaged backgrounds and assisted over 800 students in their developmental endeavours. This financial assistance is made possible by the generous contributions of our donors, who firmly believe in the value of education and the quality of education provided by our university.

As the Director of YUTP, collaborating with exceptional individuals to uplift the lives of the underprivileged is immensely fulfilling. In light of this series of successes, allow me to express my heartfelt gratitude for the outpouring support we have received in 2023. Thank you for your generous contributions towards our noble cause and let us move forward with the unfailing belief that our actions can together transform lives.

Breakdown of Funds

Scholarships

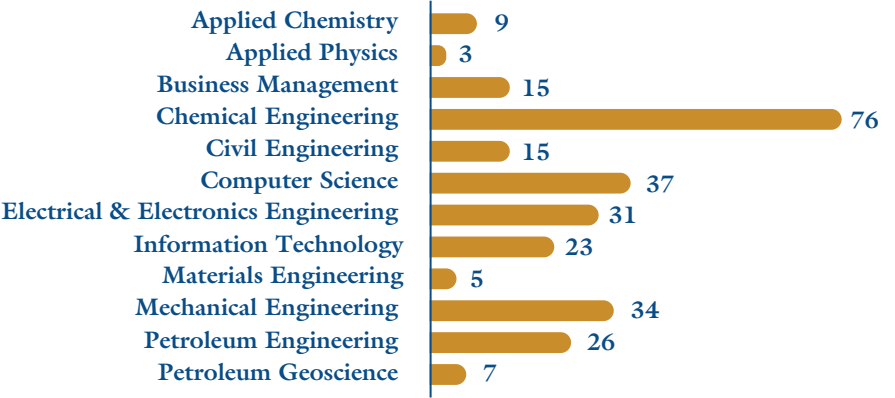

YUTP awards scholarships to high-performing students from financially disadvantaged families to help make their academic dreams a reality. A total of RM2.3 million was disbursed to support the education of 127 students at UTP through full and joint scholarship programmes with Yayasan Peneraju Pendidikan Bumiputera (YPPB), Deleum Berhad, Antara Steel Mills Sdn Bhd, Yayasan Tunku Abdul Rahman (YTAR), Technip Energies (Technip) and Murata Electronics (Murata).

Education Grants

To allow more students to continue their tertiary education in the fields of science, engineering and technology at UTP, YUTP introduced the Education Grant in 2018. The Education Grant is a financial assistance programme that covers the tuition fees of students from low to middle-income families for the duration of their programme. The amount varies, with the maximum of RM100,000 per student.

In 2023, YUTP’s Education Grant disbursed RM1.2 million to support 281 students.

The Beneficiaries

In 2023, financial assistance from YUTP and its donors helped students realise their tertiary education ambitions. We would like to take this opportunity to acknowledge their potential as well as the blood, sweat and tears of our beneficiaries. We wish them the best on their academic journey.

Bursaries

YUTP awarded bursaries worth RM0.9 million to 184 students to help them pay their tuition fees for one semester. This enabled them to complete their education at UTP.

Class of 2023

Congratulations to our scholars who successfully graduated from the university in 2023!

YUTP Full Undergraduate Scholars

1. **Ahmad Amin Haikal Aswadi**
Bachelor of Science (Hons) in Applied Chemistry
2. **Darrence Paulus Galang**
Bachelor of Chemical Engineering with Honours
3. **Mohammad Azrul Haniff Hilmi**
Bachelor of Mechanical Engineering with Honours
4. **Muhamad Hanif Mohd Misban**
Bachelor of Electrical and Electronics Engineering with Honours
5. **Muhammad Anas Aqla Nurul Fazli**
Bachelor of Mechanical Engineering with Honours
6. **Muhammad Nadzhir Jalil**
Bachelor of Mechanical Engineering with Honours
7. **Muhammad Zurmiftah Zakaria**
Bachelor of Mechanical Engineering with Honours

Their Stories

Teh Men Qi

YUTP Scholarship Recipient 2017-2020
Chemical Engineering
Site Test Planner, Micron Technology

YUTP has fueled my passion for chemical engineering and thanks to YUTP, I could pursue my dreams without constantly worrying about tuition costs. With my father being sole breadwinner of our family, we had our struggles with mounting expenses, making it difficult to save for the future. Despite this, the financial burden remains heavy, with additional expenses arising from my father's ongoing hypertension and other medical needs.

The scholarship is a complete package, including fees, accommodation and a sufficient allowance. We also had counsellors who helped us keep track and maintain a 3.0 CGPA. My education with UTP really opened up opportunities for me to go beyond.

The scholarship has truly paved the way for me in lifting the financial burden of our family and I wish for more people to have the same opportunities as I did with YUTP. Thank you, YUTP.

Ahmad Amin Haiqal Aswadi

YUTP Scholarship Recipient 2018-2023
Applied Chemistry
Laboratory Analyst, Intertek

Ever since I was in secondary school, I dreamed of being a chemist. After scoring an A in Chemistry on my SPM, I applied to UTP, hoping to get a scholarship. I am so grateful that my hopes were realised as even with a PTPTN loan, I would not have been able to pursue a degree. I am the third among seven siblings and my family survived on my dad's income as a chief clerk. The YUTP scholarship took a huge burden off my father and me, as I could fully concentrate on my studies. YUTP helped me realise my dream of becoming an engineer. It also taught me to always believe in myself and look for ways to achieve my dreams. I am thankful that they gave me the opportunity to make something of myself and I hope to soon be able to contribute to YUTP to help others realise their education dream as well.

Siti Noraqilah Sulaiman

YUTP Scholarship Recipient 2018-2023
Chemical Engineering
Process Engineer, Micron Technology

My journey with YUTP has been nothing short of life changing. I aspire to pursue a degree in chemical engineering but the financial burden that comes with higher education seems like an insurmountable obstacle. A full scholarship from YUTP changed the trajectory of my life. Covering all of my tuition fees alleviated the financial stress, which allowed me to wholeheartedly dedicate my time and energy to my studies, extracurricular activities, and personal growth.

Beyond financial support, YUTP connected me with dedicated mentors who guided my academic journey. Exposure to industry experts and access to cutting-edge research significantly broadened my horizons.

I am determined to make the most of the opportunities that lie ahead and to give back to society in meaningful ways. Thank you for YUTP's generosity and incredible support. I hope to pay it forward and have a positive impact on the lives of others, just as you have had on my life.

Nurul Ashikin Mohd Mustafakama

YUTP Scholarship Recipient 2018-2023
Chemical Engineering
PROTEGE-GEES, PETRONAS Chemicals
Group Berhad

I was in a hard place when I received the acceptance to study at UTP. My family and I worried about the financial commitment we were going to have in years. I also believe that the path to knowledge is often strewn with challenges, and YUTP has been a guiding light for me. Had I chosen UM, my father would have had to cover a portion of the tuition, which would have been burdensome as he is retired. With the YUTP scholarship, I could instead buy things for them with some of my allowance. I am really happy that I studied engineering. The UTP experience was amazing and it prepared me for the working world. I now work with process safety measures and am quite happy with my working life. To the incredible souls who have made this scholarship possible, I am thankful to have crossed paths with you as you give students like me a truly memorable experience being together with YUTP.
