Dear Stakeholders,

2018 was another wonderful year for us at YUTP. We are proud to be able to continue supporting underprivileged students in pursuing a brighter future. For 2018, a new financial assistance programme, the Education Grant, was introduced, enabling us to offer more scholarships to well-deserving students to pursue their tertiary education at UTP.

Established in 2007, YUTP remains committed in seeking contributions and in forging partnerships with individuals and organisations to support students’ education and development. Our efforts also support UTP in its growth and delivery of holistic education. To date, we have awarded scholarships and bursaries to 1,483 students from low-income families and supported more than 800 students for their development activities.

The financial assistance provided is made possible by generous contributions from our donors, who strongly hold onto the importance of education, while believing in the quality of education provided by our university.

As the Director of YUTP, it feels extremely rewarding to work alongside great people to improve the lives of the underprivileged. I would like to take this opportunity to thank everyone who has contributed to the success of YUTP in 2018, especially our stakeholders. I look forward to your continued support for YUTP in achieving our vision and mission.

Nor Adela Dinyati

I am Ern Yee and I come from a family of four with a younger sister aged 19. Being the eldest in the family comes with a burden on my shoulder as I need to set a good example to my sister.

In 2014, I achieved 8A+ and 2A in my SPM. It was a year to remember. I was over the moon and could not wait to further my studies at UTP! Unfortunately, my father lost his job around the same time. I almost gave up on my dreams due to my family’s financial constraint.

Receiving an offer from YUTP was a light at the end of a tunnel! YUTP gave me the chance to enter this prestigious university and explore more of the varsity life that I have always dreamt about. No words can describe how thankful I am to receive this scholarship.

My name is Muhammad Arif Hakimin bin Adnan from Kota Bharu, Kelantan. I am currently in my third year of undergraduate studies. I am the youngest of four siblings in a single-parent family.

Growing up was rather challenging for me. I witnessed my mother’s struggle to provide for my siblings. But the hardships and challenges taught me to work hard to improve our family’s condition.

As a recipient of the YUTP Scholarship, I feel very blessed and grateful as it paves the way for me to achieve my dream of becoming a Mechanical Engineer. Honestly, I would not have been able to attend Malaysia’s number one private university without the scholarship. I have achieved the Dean’s List honours for 6 consecutive semesters and I hope I can keep the momentum until I graduate.
